LIFE MiCliFeed Annual Meeting (Action F1)

The 4th Annual Meeting of LIFE MiCliFeed took place in Brussels on November 17–18, 2025, bringing project partners together for two days of productive discussions, knowledge exchange, and strategic planning.

Dissemination events

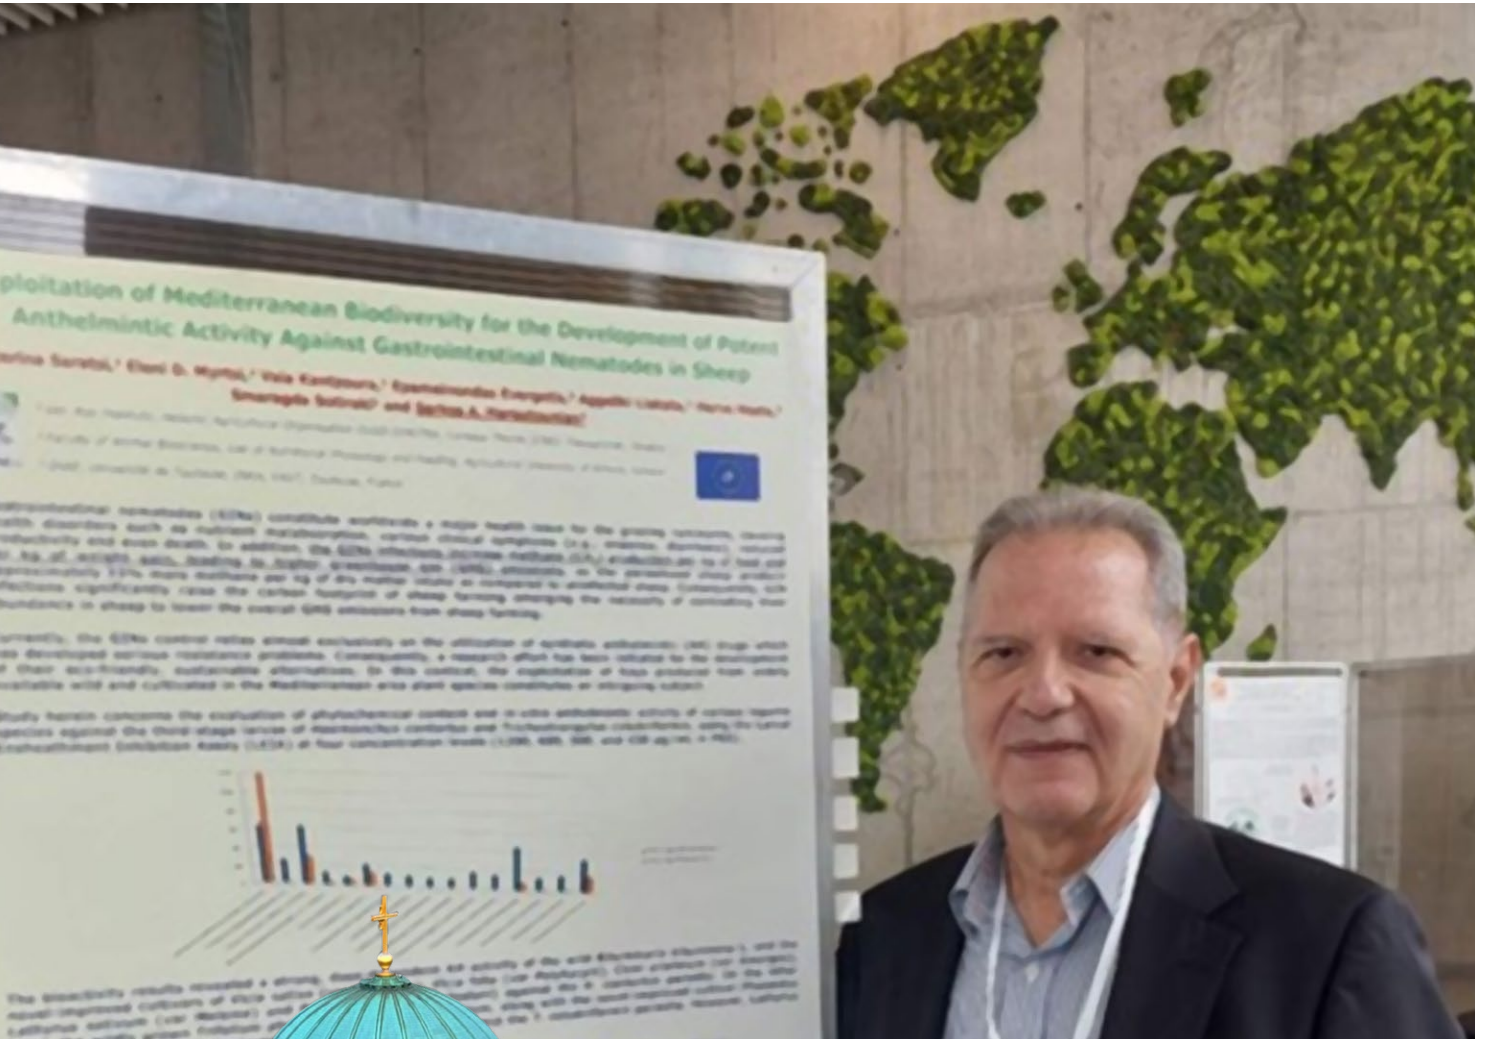

Naples, Italy October 14, 2025

The UNINA partner presented the results of LIFE MiCLiFeed during the Round Table on **“Sustainable Approach in Animal Production and Health (SAFEAH)”**, held in Naples, Italy, on October 14, 2025, highlighting the project’s contribution to sustainable animal production and health.

(Action E1.7)

Serbia

October 15-16 2025

The results of LIFE MiCliFeed were presented at the 9th International Feed Conference, **“Innovating Feed – Shaping Future”**, held in Novi Sad, Serbia, on October 15–16, 2025, showcasing the project’s latest developments and innovations in sustainable feed solutions.

(Action E1.7)

Syros Island, Greece

October 17, 2025

Beneficiaries from DaskoFeed participated in the General Assembly and Annual Forum of the Network of the Insular Chambers of Commerce and Industry of the European Union (INSULEUR) 2025, held on October 17, 2025, on Syros Island, Greece, where they presented the LIFE MiCliFeed project and engaged with European and national stakeholders and policymakers on sustainable innovation in the sector.

(Action E1.7)

Thessaloniki, Greece October 31 – November 2, 2025

The results of LIFE MiCliFeed were presented at the 16th Hellenic Veterinary Congress (VetCongress), held in Thessaloniki, Greece, from October 31 to November 2, 2025, highlighting the project's progress and contributions to sustainable livestock health and nutrition.

(Action E1.7)

Brussels, Belgium November 19, 2025

Researchers, policymakers, and sector partners came together in Brussels, Belgium, on November 19, 2025, for the forum **“WHEN PARASITE CONTROL MEETS SUSTAINABLE PRACTICES”**, jointly organized by LIFE MiCliFeed and COST Action ENVIRANT. The event fostered dialogue and collaboration on advancing sustainable approaches to livestock parasite control. More information are available at the press release published on November 2025 (https://www.lifemiclifed.eu/wp-content/uploads/pressrelease_nov2025.pdf).

(Actions E1.6, E1.7 & E2.2)

Congratulations

★ Dr. Mora!

The MiCliFeed project proudly celebrates the successful PhD defense of Blandine Mora at the INRAE research center in Theix, France, on January 7th 2026.

Her thesis “Interactions between zootechnical performance, GHG emissions, nitrogen balance, and gastrointestinal parasitism in small ruminants: effect of incorporating by-products rich in polyphenols”, supervised by Dr. Vincent Niderkorn and Dr. Hervé Hoste, was conducted in close collaboration with project partners and contributed valuable insights to the field.

Her work also resulted in several publications and was presented at the 75th EAAP Annual Meeting 2024.

MOVING FORWARD

One-year extension!

We are happy to announce that **LIFE MiCliFeed** has been extended by one year, ensuring the successful completion of all project deliverables!
